

From April 8. - 11. CALDAN exhibit at PaintExpo in Karlsruhe, Germany. PaintExpo, the largest exhibition for surface treatment in Europe, has over the years achieved status as an international leader in its field. Our expectations for PaintExpo 2014 are very high. We have increased our stand size to 102 m2, and you will see a live presentation of our latest inventions in power & free conveyor systems: the overhead conveyor P&F380 and the floor conveyor P&F140.

CALDAN product releases at PaintExpo 2014

NEW PRODUCT
P&F140

P&F140 - power & free floor conveyor

Next generation Power & Free floor conveyor

The new P&F140 floor conveyor from CALDAN is a heavy duty power & free floor conveyor offering first class reliability for next generation demands. The P&F140 is designed to meet the expectations of international clients, setting a new benchmark when it comes to handling the largest, and heaviest, unbalanced jigs. Supreme accuracy in guiding is secured by the 4 horizontal guide bearings as well as the fully adjustable "Free" track.

Compared to traditional skid systems or roller conveyors, the P&F140 operates with high reliability and smoothness. This is due to the limited use of drive units and sensors, requiring a minimum of effort and interference from the control system.

NEW PRODUCT
P&F380

P&F380 - power & free overhead conveyor

Next generation Power & Free overhead conveyor

The P&F380 from CALDAN is a highly flexible power & free conveyor, which comes with a load capacity of up to 500 kg. With a simple and reliable accumulation of wagons the P&F380 enables the possibility of buffer zones of 45°, 90° and in line. To ensure low system costs, the P&F380 has a minimal need for transfer units, as it is designed with a highly smooth trolley transfer from one conveyor circuit to another.

The leading edge CALDAN trolley- and accumulation stop design is the safeguard for instant and extremely reliable separation of wagons in the accumulating zones. The P&F380 handles accumulation noiseless with non-friction disengagement of the trolleys from the conveyor chain drive.

LIEBHERR

Customer / end user:

Liebherr-Werk Biberach GmbH

Installation site:

Biberach, Germany

Project:

Surface treatment - various parts for cranes

Conveyor type:

P&F420 - Power & Free overhead conveyor

System length, total:

673 m.

AIMM
TRANSFORMATEUR ASSEMBLEUR DE METAUX

**NEW
P&F380**

Customer / end user:

AIMM

Installation site:

Change, France

Project:

Surface treatment - various metal parts

Conveyor type:

P&F380 - Power & Free overhead conveyor

System length, total:

516 m.

**BRUNING
TECNOMETAL**

Customer / end user:

Bruning Tecnometal

Installation site:

Brazil

Project:

Surface treatment - various metal parts

Conveyor type:

P&F400 - Power & Free overhead conveyor

System length, total:

4.022 m.

MATE

**NEW
P&F140**

Customer / end user:

Motherson Automotive Technologies & Engineering (MATE)

Installation site:

India

Project:

Surface treatment - automotive bumpers

Conveyor type:

P&F140 - Power & Free floor conveyor

System length, total:

820 m.

HE-VA

Customer / end user:

He-Va Aps

Installation site:

Denmark

Project:

Surface treatment - parts for agricultural machinery

Conveyor type:

P&F400 - Power & Free overhead conveyor

System length, total:

720 m.
